email: info@kamco.co.uk

1. Product name / description:

DIPSLIDES TTC

2. Composition / information on ingredients:

Chemical characterization: Mixture. Solid.

CAS No.: Not applicable

EC No.: Not applicable

3. Hazards identification:

No hazardous components.

4. FIRST AID MEASURES:

After inhalation: Not applicable.

After skin contact: Wash off with plenty of water and soap.

After eye contact: Not applicable.

After ingestion: Give plenty of water to drink. Administer activated charcoal: 2040g in 10% slurry. If symptoms persist consult a doctor.

5. Fire fighting measures:

Material is not combustible.

Extinguishing media: Use any suitable fire fighting medium for other materials present.

6. Accidental release measures:

Person related precautionary measures: See heading 8.

Environmental protection measure: Not applicable.

Procedures for cleaning/absorption:

Unused product: Spillage of material can be removed with absorbent paper tissue.

Used product: Spillage of potentially infectious material should be immediately removed with absorbent paper tissue and the contaminated area swabbed with a standard disinfectant.

Materials used to clean spills, including gloves, should be disposed of as biohazardous waste.

7. Handling & storage:

Specific risks: As the incubated slides are microbe cultures, they should be handled carefully.

Handling: For in vitro diagnostic use.

Unused product: No further requirements.

Used product: Wear suitable protective gloves. Do not eat, drink or smoke while handling this material.

Contaminated clothing should be removed and washed before re-use.

Storage: About +20 °C. Consult instructions for use.

8. Exposure controls / personal protection:

Exposure limit values: Not applicable.

Occupational exposure control: Use in accordance with good laboratory practice.

Respiratory protection: Not applicable

Eye protection: Not applicable

Hand protection: Unused product: Not necessary. Used product: Wear protective gloves.

Skin protection: Not necessary when handling unused material.

Environmental exposure controls: Not applicable.

9. Physical & chemical properties:

Form: Solid

Colour: Pale yellow

Odour: Odourless

pH value: 6, 8-7, 3

Ignition temperature: not applicable

Density: not applicable

Solubility in water: soluble

Thermal decomposition: not applicable

10. Stability & reactivity:

Stable.

11. Toxicological information:

Hazardous properties cannot be excluded handling inoculated product but unlikely when handled appropriately.

12. Ecological information:

No environmental hazard is anticipated provided that the product is handled and disposed of with due care and attention.

13. Disposal considerations:

General information: Disposal of all material should be in accordance with national, state and local regulations.

Unused product: The product may be treated like household waste or recycled.

Used product: The used product should be considered dangerous because of the possible infectivity. Render the material noninfectious before discarding.

Packaging: Disposal in compliance with official regulations. Handle the contaminated packaging in the same way as the samples/reagents itself. If not officially specified differently, non contaminated packaging may be treated like household waste or recycled.

14. Transport information:

The product is not subject to the regulations for transport of hazardous goods.

15. Regulatory information:

None specified.

16. Other information:

Restriction of use: In Vitro use only.

Products supplied are packed in sealed plastic/glass closures in small quantities. All reagents are contained in cartons designed to offer protection during transit and storage. Unless the products are mishandled or crushed, they do not pose hazard to intermediaries. The supplier shall not be held liable for any damage resulting from handling or from contact with the above product.
