

Clearflow CF20 Compact

Product Code : CDP020F

The Clearflow CF20 Compact is a handheld lightweight power flushing machine that can be used for a variety of applications including the cleaning and flushing of hydronic / heating systems, flushing of underfloor circuits and the descaling of heat exchangers.

The CF20 Compact can also be used in air source applications where flushing and filling is key to any new or retrofit installation.

All Clearflow units are compatible with for use with all Kamco cleaners and have the ability to handle acids, alkaline and chlorine solutions.

Product Features

- Ultra high flow rates for maximum removal of corrosion debris.
- Instantaneous flow reverser.
- Operation up to 75°C and run dry capability.
- Highly portable at under 12kg with a carry handle.
- Dual purpose - Acid proof construction allows pumps to be used to descale boilers and fill systems with glycol.
- 3-port combination valve for isolation and dumping.
- Flushing capability up to 15 radiators, 2 storey maximum.
- Comes complete with 5m flow, return and dump hoses.

Product Specification

Motor Size : 0.45kw, IP55 rating, 230 or 110 volt

Tank Capacity : 20l Translucent HDPE

Max Flow Rate : <60 l/min

Max. Head : 14m

Max. Temperature : 75° C

Weight : 11.8kg

Dimensions W x D x H (mm) : 250 x 450 x 540mm.

Warranty : 2 year parts & labour.

Barcode/EAN Number : 5060134591084

Hose End Fittings : 1/2" BSP x 16mm brass hose couplings.

When you purchase a Clearflow product, you are purchasing a class leading professional power flushing solution. Power flushing is the most effective method of cleaning an existing heating system, especially those containing large quantities of corrosion debris.

All Clearflow power flushing pumps come complete with a hose pack, connectors and trial chemicals. As a trusted manufacturer to the installer base you will also receive a free Kamco training course at our UK Training Academy based in St. Albans.
