

## SystemSafe KS2 Central Heating Boiler Hush

The new Kamco SystemSafe KS2 Central Heating Boiler Hush is a noise reduction fluid that works by using a specially formulated treatment added to the heating system. It helps to reduce the sound caused by the flow of water through pipes, pumps, and radiators, especially in older or noisy systems.

The product aims to tackle common problems like "kettling" (when the boiler makes a boiling or rumbling noise due to limescale build-up) and general operational noise in the system. Common noises like gurgling, banging and hissing are often caused by airlocks, debris or the build-up of sludge in the system.

## Product Features

- **Noise reduction** to be reduced or completely eliminated ensuring a quieter operation.
- **Prevents airlocks** which are the primary causes of heating system noise, Boiler Hush works to eliminate these air pockets.
- **Restores system efficiency** by helping the system run more smoothly, improving heat distribution.
- **Compatibility** with all types of central heating systems.
- **Safe and easy to use** due to its non-toxic blend and formula which doesn't harm the system or components.

### Competitor Comparisons

- Adey MC2+
- Fernox F2
- Scalemaster SM2
- Sentinel X200

## Product Specification

**Sizes Available :** 500ml & 10L

**Dosage :** 500ml per 100-litre system

**Form :** Liquid

**Odour :** Slight

**Colour :** Blue

**pH Conc :** 5.5

**SG :** 1.00

**Product Code :** 500ml - BSH006

10L - BSH008

**EAN Number :** 500ml - 5060 13459 1879

10L - 5060 13459 1893

**BUILT IN  
BRITAIN** 

+44 1727 875020
