

SystemSafe KS3 Central Heating Cleaner

The new Kamco SystemSafe KS3 Central Heating Cleaner is a product designed to clean and maintain central heating systems, both new and old.

The powerful central heating cleaner helps remove sludge, dirt, limescale, and other debris that can build up in heating systems, improving the efficiency and lifespan of the system.

SystemSafe KS3 Central Heating Cleaner works by breaking down the sludge, rust, limescale and other debris that accumulates in the system over time. product can be used on both new and old multi metal and plastic piped heating systems.

Product Features

- **Removes sludge, rust & scale** by breaking down and removing a variety of deposits.
- **Improves system efficiency** by cleaning out internal blockages which restores the flow of water throughout.
- **Effective flushing** which can be a part of a larger system flushing process where it helps to clear debris.
- **Compatible with protectors** as the KS3 Central Heating Cleaner works in conjunction.
- **Before new installations** which conforms with BS7593 and the Part L standards.
